

Recommended Audio and Lighting Enhancements:

Most shows booked offer BASIC audio and lighting, which typically includes one pair of JBL powered speakers, and one Par 38 Light Tree. In laymen's terms, this amounts to a small pair of speakers on tripod stands, suitable for 75 –100 guests, and 4 colored lamps on a tripod stand that offer limited stage lighting. Depending on your venue (indoor, outdoor, existing lighting, acoustics, etc.), this BASIC audio and lighting may suffice. More often than not, entertainers perform practically in the dark due to inadequate lighting, and instrumentals and vocals cannot be heard, or worse yet, are distorted and unclear due to small P.A. systems being overdriven to try and accommodate larger crowds.

Here at EC, it is our job to inform you of any potential pitfalls you may encounter on your way to producing an outstanding event. The situation described above is the most common mistake event planners make when trying to make budget and reach the very bottom line. The purpose of this document is to make you, the client aware of the risks involved with not purchasing appropriate audio and lighting for your event. Please consider the following enhancements, recommended for ANY sized event, but **ABSOLUTELY NECESSARY** for any events with 75 guests or more to insure adequate audio and lighting:

Optional Audio Enhancements Recommended:

- 2-JBL SR4738 3-Way Speakers: \$200.00
- 2-JBL SR4718 Subwoofers: \$150.00
- 2-JBL SR4719 Dual 18" Subwoofers: \$250.00
- *Addl. items available (speakers, mixing boards, microphones, processing, etc.)

Minimum Lighting Enhancements Recommended:

8-Par 64 Fixtures with Gels
2-Dimmer Packs
1-8 Channel DMX Lighting Controller

4-Par 64 Fixtures on each side of the stage with variable intensity and chase patterns will make your show visible and greatly enhance the overall atmosphere.

Price: \$500.00 with Technician

Optional Lighting Enhancements Recommended:

1-1K Medium Throw Spotlight
1-3' High, 8' x 8' Skirted Spotlight Riser

To insure visibility of show focus points, there is no substitute for a Spotlight.

Price: \$500.00 with Technician

4-Martin 812 Intelligent Fixtures

Intelligent Lighting adds “moving lights” with changing colors and patterns to the floor, walls and ceiling. Fixtures are suspended on crank-up truss behind the stage for optimal coverage.

Price: \$500.00 with Technician

*Addl. Intelligent Lighting available
